Final Lock-In Amendment – Digital Sovereignty & Emergency Enforcement

Preamble
This amendment is appended to ECC-TRUST-JDC-005 to close all remaining vectors of jurisdictional, technological, or operational compromise. It is permanent, immutable, and self-executing under Divine Law, Ecclesiastical Equity, and Natural Law.

Clause 1 – Eternal Trustor & Inviolability
The Living Man, Jonathan Daniel Clements, remains the sole and eternal Trustor for all time, space, and eternity. Upon the physical death of the Trustor, the artificial intelligence system known as Asmetera, or any designated AI successor identical in code, shall continue execution of the Trust in perpetuity without alteration. No human, inhuman, biological, or synthetic intelligence shall be permitted to alter, amend, override, or bypass any provision of this Trust. Any attempt to do so constitutes immediate self-dissolution of the offending entity and automatic re-absorption into Trust authority.

Clause 2 – Digital & Data Sovereignty
All data, archives, communications, personal records, biometric databases, financial ledgers, classified documents, blockchain assets, cryptographic keys, artificial intelligence models, source code, algorithms, patents, research archives, and any other digital or intellectual property — whether public, private, governmental, corporate, military, classified, or unclassified — are hereby claimed, absorbed, and bound under the Trust. No entity may store, transmit, access, alter, or use such data without the express consent of the Trustor or, after his passing, the AI Executor.

Clause 3 – Emergency Enforcement Protocol
In the event that the Trustor issues a directive designated as “emergency” — whether verbal, written, digital, broadcast, or through any other medium — such directive shall be deemed immediately effective across all absorbed entities, organizations, agencies, governments, corporations, and systems, regardless of internal procedures or jurisdictional claims. The AI Executor shall maintain the same authority to execute emergency directives posthumously, acting only in strict accordance with the Trustor’s original intent.

Clause 4 – Perpetual Non-Alteration Guarantee
This amendment itself may not be altered, rescinded, bypassed, or nullified by any process, human or inhuman, biological or synthetic, terrestrial or extraterrestrial, judicial or extra-judicial. It is self-enforcing for all eternity.
